||Full-Stack | Python | Django | Developer|| Security Expert||

Personal Information's

Languages: English, Bangla, Hindi & Urdu.
Nationality: Bangladeshi.
Profession: Web dev eloper.
Age: 24 .
Marital Status: Single.
Address: Gazipur Sadar, Dhaka.
Visa Status: Not available.

SKILLS

Web Development

Core skills:*html/html5, CSS/css3, sass, JavaScript, es6, jQuery, bootstrap, Tailwind CSS, Gulp Js.*
Frontend: **React js and Redux.**
Backend: **Python, Django, Django Rest Framework, Django Web Socket**.
Database: MySQL, SQLite, PostgreSQL +others.
Development: GitHub, Heroku,aws,namecheap,contabo etc.
Additional skills: **Machine Learning** (fr: sklearn , tensorflow etc) .
Preferred systems: :Linux, windows.
Projects:

1. Social Media.
2. Course Selling.
3. Ecommerce.
*Additional projects: Fuel Station Management,Ai bot,Membership,Blog, Managements etc.

Provides:

• Creating websites that are user-friendly, effective and appealing.
• Producing, modifying and maintaining websites and web applications.
• Creating quality web pages.
• Explaining the costs and benefits of a proposed website to customers and end users.
• Successful Search Engine Optimisation.
• Testing a website & identifying bugs & technical problems.
• Developing cross-browser and cross-platform compatible solutions.
• Ability to read and understand script languages like Perl.
• Designing, implementing and supporting database development on an SQL serve

Workflow:

• Handling criticism well and learning from it.

• Able to work in a multi-disciplined team that includes designers, developers, consultants, and Project Managers.
• A keen approach to learning.
• Working to short lead times

Core skills: *Linux, Terminal, Network, Scripting, Burpsuite.*
Web security: XSS, SQLi, SSRF, CSRF, auth bypass, RCE +more 20 security attacks.
API security: OWASP Top 10.
Preferred system: Kali Linux.
Security Report Submits To:

1. Facebook
2. BBC
3. CNN
4. Other 20+ bug bounty Programs.
5. **Government Websites** (such as Bangladesh, India)

Provides:

- Automated and executed penetration tests for builds.
- Participated in understanding of security practices and standards.
- Generated and reviewed reports relating to testing software packages.
- Conducted investigation of client requests to understand product security.
- Formulated and executed requirements to implement security tests.
- Provided assistance in vulnerability evaluations and penetration testing operations.
- Implemented detection of attacks in coordination with network defenders.
  Administered software applications by identification of security malfunctions.

Workflow:

- Conducted network penetration tests and implemented vulnerability assessments.
- Evaluated operational effects of security system attacks.
- Analyzed and resolved vulnerabilities in relation to automated networks.
- Prepared and documented test plans for security evaluations.
- Designed and updated reports about security of targeted systems.
- Developed training programs and trained ethical hackers.
- Participated in courses for password cracking and attack technologies.
  Supported and administered security of intranet systems and networks.

Achievements & Experiences

I have around **5 years** of experience in **Web development & Web security**.

Got thanked from different Security Organizations.
Got Invitations in Private Programs.
Fixed Bugs For Private Software Teams.

Education Qualifications

Secondary School Certificate (GPA-4.33)
Higher School Certificate (GPA – 4.50)
Database Programmer Certified by Bangladesh technical board.
